

# WL 467HQ

FD6

SEMI-DORMANT

## CONSISTENT HIGH PERFORMER IN SEMIDORMANT TERRITORY

### An intermediate HQ alfalfa to pay attention to

WL 467HQ compliments and continues the gains made in the semi-dormant space for W-L Alfalfas. Not only is WL 467HQ a go-to selection for yield and 'HQ' levels of feed value, it contains an agronomic package of high resistance levels to yield-robbing stem nematode and pea aphid among others, making it a wise long-term investment.

### WL 467HQ Advantages

- Excellent yield potential and agronomic performance under 5 to 7-cut harvest management systems (FD=6.0)
- "HQ" feed value levels make WL 467HQ highly desirable for cash hay and dairy producers alike
- Highly-resistant to stem and root knot nematode, and pea aphid to allow to maximize genetic potential
- WL 467HQ delivers fast recovery, quickly closing the canopy to outpace yield-robbing weeds
- Very strong disease resistance package, (including HR to Fusarium Wilt, Verticillium Wilt and Anthracnose; R to Phytophthora Root Rot) promoting quick establishment and long stand life
- Great standability for intensive management systems
- Dark green, fine-stemmed, and a highly palatable HQ variety
- Very well-adapted and selected for use in the Western U.S. and Southern Plains

# HQ™

#### AGRONOMIC TRAITS

|                          |           |
|--------------------------|-----------|
| Fall Dormancy            | 6.0       |
| Winter Activity          | Moderate  |
| Digestibility/Feed Value | Superior  |
| Persistence Index        | Very High |
| Recovery After Harvest   | Very Fast |
| Standability             | Excellent |
| Traffic Tolerance        | Very Good |
| Multileaf Expression     | Moderate  |

#### PEST RESISTANCE TRAITS

|                               |    |
|-------------------------------|----|
| Bacterial Wilt                | HR |
| Fusarium Wilt                 | HR |
| Verticillium Wilt             | R  |
| Anthracnose (Race I)          | HR |
| Phytophthora Root Rot         | HR |
| Aphanomyces (Race I)          | R  |
| Spotted Alfalfa Aphid         | R  |
| Pea Aphid                     | HR |
| Stem Nematode                 | HR |
| Root-Knot Nematode (Northern) | HR |

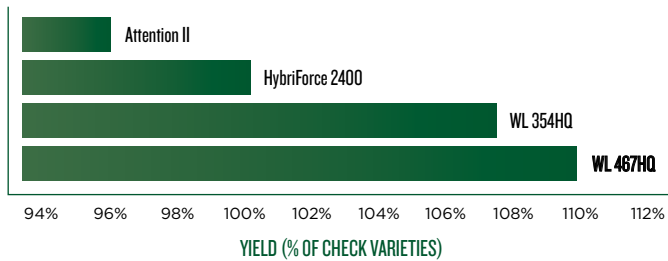

HR = HIGH RESISTANCE R = RESISTANT MR = MODERATE RESISTANCE
