

# WL 558HQ.RR

FD8

NON-DORMANT

## INCREDIBLE YIELD POTENTIAL BACKED BY SUPERB FORAGE QUALITY

**WL 558HQ.RR results from five years of intense forward breeding from WL 552HQ.RR with the focus on additional high yield potential, persistence, forage quality and increased pest resistance.**

### WL 558HQ.RR Advantages

- WL 558HQ.RR is a winter-active, non-dormant FD=8.0
- An ideal non-dormant variety for the cash hay producer, WL 558HQ.RR produces big yield potential of leafy, fine-stemmed hay with dark green color and high feed value
- With an improved disease resistance package (including HR to Phytophthora Root Rot, Fusarium Wilt, Bacterial Wilt, Spotted Alfalfa Aphid and Pea Aphid and R to Anthracnose) it promotes fast seedling establishment and long stand life
- WL 558HQ.RR has excellent tolerance to leaf diseases, supports improved leaf retention, higher protein levels, and greater forage quality

### Planting WL 558HQ.RR and utilizing the Roundup Ready® weed control system provides many benefits over conventional herbicide programs

- Exceptional weed control when establishing new stands and in established stands can mean fewer weeds and higher-quality hay, which can result in higher forage quality and greater profit potential
- Optimal crop safety at all growth stages with the Roundup Ready® weed control system means thicker stands and higher yield potential for the life of the stand
- Flexibility in timing herbicide applications allows alfalfa producers utilizing the Roundup Ready® system to spray when necessary; no carryover or crop rotation limitations
- There is minimal wait (5 days) after a Roundup® application before haying/feeding

#### AGRONOMIC TRAITS

Fall Dormancy	8.0
Winter Activity	High
Digestibility/Feed Value	Superior
Persistence Index	Very High
Recovery After Harvest	Very Fast
Standability	Excellent
Traffic Tolerance	Very Good
Salt Tolerance	Germination

#### PEST RESISTANCE TRAITS

Bacterial Wilt	HR
Fusarium Wilt	HR
Verticillium Wilt	R
Anthracnose (Race I)	R
Phytophthora Root Rot	HR
Spotted Alfalfa Aphid	HR
Pea Aphid	HR
Blue Alfalfa Aphid	R
Stem Nematode	R

HR = HIGH RESISTANCE R = RESISTANT MR = MODERATE RESISTANCE

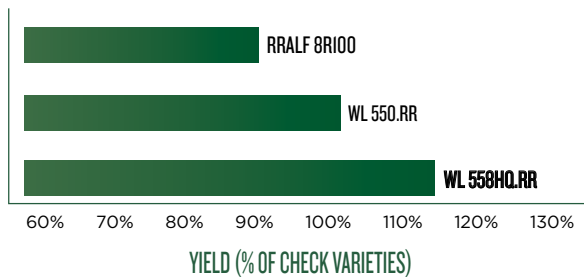

■ Area of Primary Adaptation

## WL 558HQ.RR Excels Against the Competition\*

Los Banos & Shafter, CA 2013

Davis, CA 2013
